

Lua
Sofa & Armchair

asset
space becomes place

LUA

Lua is a collection of upholstered furniture which includes an armchair as well as two and three-seater sofas. Elegant simple forms are made of pillows with soft lines. The collection is completed with unique accessories such as a lamp with a lampshade and a table with a wooden top.

The accessories are added to the construction of the furniture, constituting its natural continuation. The accessories can be added to the furniture at any time.

The Lua collection is equipped with two types of bases, made of metal and wood. Wooden legs warm up the image of the furniture, giving it a home-like look.
