Defne Koz & Marco Susani

true

A collection of sound-absorbing dividing panels able to guarantee privacy without isolating from the surrounding environment. The self-supporting structure allows the integration of individual elements that can rotate freely on themselves, opening and closing as required. The module, in addition to ensuring acoustic comfort, is suitable for rhythming and furnishing workplaces, open spaces, hotel lounges, but also private homes.

Una collezione di pannelli divisori fono-assorbenti in grado di garantire la privacy senza isolare dall'ambiente circostante. La struttura autoportante permette l'inserimento dei singoli elementi che possono ruotare liberamente su se stessi, aprendosi e chiudendosi a seconda delle esigenze. Il modulo, oltre a garantire il comfort acustico, è adatto a ritmare e arredare i luoghi di lavoro, gli open space, le lounge degli hotel, ma anche le abitazioni private.
