Meeting tables

High meeting tables

Coffee tables

Environmental product profile

Key features of BOTANY:

- Nature-inspired, timeless design, created in collaboration with the globally recognised architecture and design firm Gensler.
- A broad collection of tables and chairs designed to work seamlessly together.
- Distinctive materials used in production, including MDF Valchromat and engineered veneer Linea.
- Carefully selected materials and construction solutions create not only unique forms, but also a sense of comfort.
- Precisely considered details — from the upholstery of chairs to integrated power solutions in tables.
- A wide choice of bases and finishes.
- Meets high sustainability standards.

Sustainable producer credentials:

- 100% renewable electricity used in production.
- [Comprehensive annual sustainability report.](#)

Potential sustainable building contributions:

- These attributes can help you achieve criteria towards LEED, BREEAM, SKA, and WELL building certifications.

Product quality:

- [10-year warranty for metal base.](#)
- [2/5-year warranty for tabletops.](#)
- [2-year warranty for electronic components.](#)
- Complies with the European safety, strength and durability standard: LST EN 15372:2023 (Level 2); LST EN 1730:2012.
- Complies with the BIFMA safety and durability standard for desks and tables: BIFMA X5.5.
- Complies with VOC Emissions: BIFMA M7.1.

Sustainability information

Meeting tables

The BOTANY meeting tables models are available in different configurations. The sustainability data presented below apply to the reference model CBM100.NEO2.MA01: Round meeting table with metal base (4 seats).

Product material breakdown:

- MDF (Medium Density Fiberboard) - 32.77%.
- Steel (metal) - 52.40%.
- Aluminium (cast) - 14.83%.

High quality, certified materials:

- Chipboard has extremely low formaldehyde emissions, compliant with the US CARB II and German E05 standards.
- Chipboard (particleboard) from FSC-certified wood.
- No SVHC (Substances of Very High Concern) present in the product.

Product circularity:

- Designed for disassembly: 100% of parts are separable.
- Spare parts available to order.
- Recycled content in the product: 20%.

- Product recyclability: 55%.

Delivery and packaging:

- Delivery type: land and sea.
- Supplied in three packages: tabletop, metal disc and metal base.
- Packaging materials: 100% recycled cardboard and plastic bags.
