space becomes place

Deep focus, fully supported. Hushfree Work

hushoffice

For what happens inside.

Hushfree Work

Hushfree Work is a one-person acoustic office pod, designed around the way you actually work, providing a dedicated space for focused, heads-down tasks and online meetings. Inside, you get a true ergonomic workstation experience with an intuitive electric sit-and-stand desk, space for a dual-monitor setup plus 4 power sockets within easy reach, while advanced acoustic engineering keeps your speech private and the office noise outside.

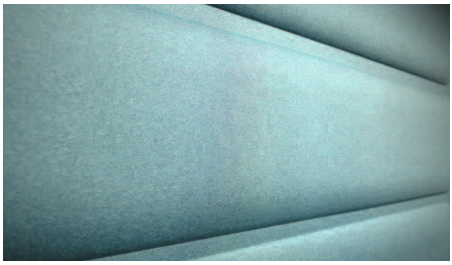

Ergonomic workstation experience – supports comfortable sit-and-stand hybrid work

Flexible equipment set up – spacious enough for a dual-monitor rig

Equal Welcome – accessible by design

Built for ergonomic performance
The spacious desk supports a two-monitor setup. The pod fits a regular office chair, and the height-adjustable desk encourages healthy posture.

Advanced acoustic engineering
For the comfort of speech privacy and a noise-free workspace, our precision-layered acoustic materials effectively absorb, block and diffuse sound.

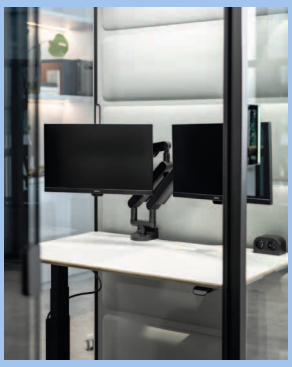

Hushassistant – for seamless user experience
Instantly adjust human-centric lighting with customizable color temperature and control airflow to your personal comfort.

Low-noise, high-efficiency ventilation system
Efficient, quiet ventilation continuously supplies fresh air to support concentration and well-being.

A true workstation experience in open offices, enabling deep focus with an ergonomic, spacious desktop and ample room for seating.

Spacious interior fits two monitors setup.

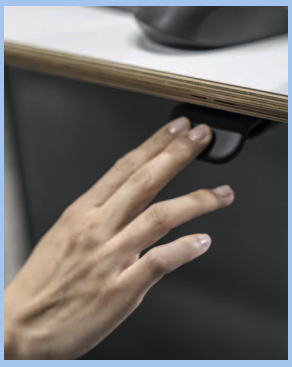

Compact footprint makes it a perfect fit for any office layout.

Advanced comfort inside and out – deep focus happens within while collaboration continues uninterrupted outside.

Perfect for hybrid collaboration, with face-enhancing side LED lighting (video-ready).

Seamless usability with integrated sit-stand desk for flexible work modes.

Features

CONSTRUCTION

1. Dimensions: 1855×1200×2280mm (73×91×47.25in)
2. Footprint: 2.3m^2 (23.95 sq ft)
3. Sprinkler ready – upper panel prepared for connecting sprinklers and smoke detector
4. Floorless design
5. Stable levelling feet
6. Possibility of seismic anchoring

ACOUSTICS CLASS B (ISO 23351-1:2020)
